Call for Abstracts

Abstracts can be submitted for poster or oral presentation only at

www.wite.org

Submission opens October 1, 2005
Abstract deadline February 5, 2006

Social Program

Tuesday, May 30
Welcome Reception

Wednesday, May 31
Poster Presentation with Wine and Cheese

Thursday, June 1
Gala Dinner at the Würzburger Residenz

2nd International Conference

STRATEGIES IN TISSUE ENGINEERING

Photos: Noth, Schröder-Köhne & Fotoclub Würzburg <http://wuerzburg.de/fcw>

Conference Fees

	Regular	Students
Until March 5, 2006:	190 €	60 €
After March 5, 2006:	250 €	75 €

Special reduced group-fees may apply

General Information and Contact

BioMedTec Franken e.V.
Friedrich-Bergius Ring 15
D-97076 Würzburg, Germany
phone +49 (0) 931/2998875
fax +49 (0) 931/2998894
e-mail: info@biomedtec-franken.de

Conference Venue

Congress Center Würzburg
Pleichertorstrasse 5
D-97070 Würzburg, Germany
phone +49 (0) 9 31/3 05 30
fax +49 (0) 9 31/3 05 39 00

Main Topics

- Embryonic and Adult Stem Cells
- Engineering of the Musculoskeletal System
- New Tools for Cell and Tissue Imaging
- Economic Perspectives and Quality Control

Other Topics

- Development and Regeneration
- Novel Biomaterials
- Drug Targeting and Release
- Visceral Organs
- Nervous System
- Skin and Epithelia
- Microarray Technology

Organizing Committee

Jochen Eulert, MD (Chairman)
Christopher H. Evans, PhD
Franz Jakob, MD
Ulrich Nöth, MD
Ulf R. Rapp, MD
Stephan Reppenhagen, MD
Stephan Schröder-Köhne, PhD
Norbert Schütze, PhD
Andre F. Steinert, MD
Rocky S. Tuan, PhD

MAY 31 - JUNE 2, 2006

Congress Center
WÜRZBURG

Welcome

Dear colleagues and friends,

On behalf of the organizing institutions we are very proud to invite you to the 2nd International Conference "Strategies in Tissue Engineering", which will take place again in the charming city of Würzburg, Germany.

The first conference in 2004 attracted more than 450 participants from 19 countries and covered all topics related to tissue engineering. For our 2006 meeting we endeavour to produce a refreshing program that includes as many new faces as possible, reflects the international nature of the tissue engineering enterprise and focuses on main topics. Well-known international scientists will be invited to discuss with you the latest developments in musculoskeletal engineering, cell and tissue imaging, the biology and application of stem cells, quality control and economic perspectives. The suitability of embryonic and adult stem cells for cell therapy will also be addressed in a special panel discussion. Additional symposia and workshops will cover all other topics related to the field of tissue regeneration.

As in 2004, it is one of the major goals of the 2006 meeting to provide an interactive platform for students, young researchers and established scientists, for basic science, translational research and clinical applications.

We would be very proud to welcome you again to a meeting which will provide ample opportunity to confer with your colleagues in a relaxed fashion.

Sincerely yours,

Jochen Eulert (Germany)
Christopher H. Evans (USA)
Ulrich Nöth (Germany)
Ulf R. Rapp (Germany)
Rocky S. Tuan (USA)

Schedule

	Tuesday, May 30	Wednesday, May 31	Thursday, June 1	Friday, June 2
8:00			Stem Cells II "Adult SC"	Musculoskeletal System III "Cartilage"
10:00		Opening	Coffee Break	
10:30		Stem Cells I "Embryonic SC"	Economic Perspectives/ Quality Control	Biomaterials II "Drug Targeting and Release"
12:30		Poster and Industrial Exhibition Lunch Break & Lunch Symposia	Poster and Industrial Exhibition Lunch Break & Lunch Symposia	New Tools for Cell and Tissue Imaging
14:00		Musculoskeletal System I	Musculoskeletal System II "Bone"	"The Suitability of Adult and Embryonic Stem Cells for Cell Therapy"
16:00		Coffee Break		Poster Awards & Closing Remarks
16:30		Cardiovascular System	Microarray Technology	
Evening	19:30 Welcome Reception	18:30 Poster Presentation with Wine and Cheese	19:45 Gala-Dinner & Wine-Tasting Würzburger Residenz	

- Main Topics
- Other Topics
- Panel Discussion
